Response to Restriction Requirement - 10 Pages Amendment to Inventorship - 2 Pages Transmittal Letter (1 original pages and 1 copy page) - 2 Pages

Serial No.: 10/808,884 Filed: March 25, 2004

Dear Examiner,

This is in response to the official action mailed May 3, 2007.

The Examiner had issued a Restriction to one of the following inventions as required under USC 121:

I. Claims 1-5, 7-11, 13 and 17-21, drawn to a composition containing a thermal acid generator, classified in class 430, subclass 270.1.

II. Claims 22-30, drawn to a composition without a thermal acid generator, classified in class 430, subclass 270.1.

Claims 14-16 were withdrawn from consideration due to an earlier restriction requirement.

Since the Examiner requires an election of a species or invention to be examined and identification of the claims encompassing the elected invention, the applicants elect Group II and claims 22-30 for examination.

The response also contains an Amendment to the Inventorship under 37CFR 1.48(b) and a fee under 37CFR 1.17(i).

The Commissioner is hereby authorized to charge deposit account 50-3309 the fee of \$130.00 for the Amendment to Inventorship. The Commissioner is also authorized to credit any overpayment or charge any fee deficiency to Deposit Account No. 50-3309.

The response contains a complete set of claims and a remarks section.
